

Crowncare

Crown Care is an established operator and developer of care homes for older persons, with a reputation for delivering purpose built, high quality, design led accommodation. Our homes are registered to provide residential care for the elderly including nursing and dementia care as well as shorter term, respite or convalescence care services.

All care homes within the Crown Care portfolio are regulated by the Care Quality Commission (CQC) and the company has attracted some of the leading clinicians and managers from across the care sector who have contributed to achieving what are uniformly high standards of excellence across its entire portfolio. To this end Crown Care have developed systems and processes that will enable the delivery of real value to residents and their families, meeting and exceeding regulatory requirements, and creating thriving homes with a philosophy of care that puts the needs of our residents at the centre of everything we do and how we do it. Live the Life You Choose, we believe in promoting independent living for our elders with care that is flexible enough to enable you to live the life you choose. Residential care across all our care homes is not dictated by staff rotas nor available resources like some other forms of care, but seamlessly fits to your requirements, 24 hours a day, 7 days a week.

Crown Care has worked with the same architects, building contractors and suppliers for many years. This provides continuity throughout all of the Homes and it also enables us to identify and implement the latest innovations, technologies and styles into the design of our Homes.

Crown Care is a progressive and ambitious company, which believes that great building design, rigorous clinical processes, combined with well trained and motivated staff, creates a care environment that enables the elderly to continue to live rich and active lives, sharing memories, making new friends and contributing to a thriving community of care.
