

Home Care Plus - Domiciliary care

We are specialists in delivering a vast amount of services to people from all ages with varying degrees of abilities, conditions and illnesses. Our main focus is to provide high quality care, by ensuring that you remain in control of the care that you receive, by placing you at the heart of what we do. Home Care Plus delivers generalist and specialist services for the local community. We believe in being open, honest and transparent with you at all times, which will hopefully allow you to place your trust in a good quality, family run care company, with strong family values and an ethos that will promote independence, dignity and ensure that you are afforded the utmost respect at all times.

Home Care Plus is a family run domiciliary care agency that was formed in April 2014. Despite this being a new company the experience that the management team has is vast and spans over 15 years in the private care sector. We were once one of the biggest domiciliary care agencies in Newcastle upon Tyne, but also worked with a number of neighbouring authorities, successfully delivering around 12,000 hours of care across the North East, with an excellent reputation. We ceased operating in 2011 to follow a different venture which led us to open a Nursing home for Adults with Complex health needs, which has only further expanded our knowledge in the more clinical specialist aspects of care needs that people need to be able to remain at home, to prevent them needing to be admitted to a residential setting. Hence the reason for us realising that having a domiciliary care company that is led by both a Qualified Nurse and a Qualified Social worker can only enhance the quality of care that is delivered and allow for more complex tasks to be carried out such as PEG feeding, Stoma Care, Pressure relieving Care, Palliative care and much more .

Home Care Plus is a highly reputable domiciliary care company that delivers flexible, responsive care 24 hours per day, 7 days per week. We have a dedicated staff team who take pride in their role and will assist you with any queries you may have. When choosing our staff we look for the best, by ensuring that they are professional and have some technical ability, as well as firm belief in our organisational values. This is established through training and professional development. We expect our staff to assist us in promoting our company aims, values and objectives.

Home Care Plus is rated Good by the Care Quality Commission please see our report here
