

Careline Lifestyles

Careline Lifestyles has been a leading provider of specialist quality care and support for over 30 years.

Our focus is to deliver outcomes based care, providing our services users support and rehabilitation towards meaningful goals. We support people with a range of needs from short term care to support a good quality of life to long term complex care for individuals who require intensive support and rehabilitation.

All our services are individualised, person centred and focussed on outcomes. We passionately believe that our service users have the right to live lives that are meaningful and which enable them to reach their full potential as individuals. Our services promote recovery and social inclusion.

We are extremely proud of our services, staff and service users.

Over the last 30 years we have built up an excellent reputation for working in partnership to provide quality services. We now offer diverse range of highly regarded services across the North region.
