Supporting Health and Wellbeing

Karbon Homes Supported Housing

We provide floating support to people suffering from mental health issues and supported accommodation to those people facing homelessness in North Tyneside.

Our floating support service is subject to an individual service fund agreement. Your social worker or health care provider will be able to give you information about applying for funding to receive our support.

Our supported accommodation is fully furnished and is offered for up to one year to help people to make the step from homelessness to having a tenancy of their own.
