

Trinity Homecare

At Trinity Homecare, we're a multi-award-winning home care provider that's committed to supporting life's journeys. We arrange bespoke care plans with you in the centre. From compassionate companionship to heartfelt and respectful personal care, our committed team will be by your side to support you and your loved ones.

The Care Quality Commission regulates our live-in and visiting care services. This means our services are regularly inspected and assessed against regulatory guidelines. We're delighted to have achieved an 'Outstanding' rating in our last inspection which means we're proven to provide safe, effective, caring, responsive and well-led services.

Trinity Homecare's journey started over 20 years ago when a husband and wife team founded a small care agency in Wimbledon. They wanted to make a difference to people's lives and after all this time, this has never changed.

We've developed our team and our services to provide heartfelt visiting home care and bespoke support across Surrey, and live-in care throughout mainland England.
