## RNIB (Royal National Institute for Blind People)

We're the Royal National Institute of Blind People (RNIB) and we're here for everyone affected by sight loss. Whether you're losing your sight or you're blind or partially sighted, our practical and emotional support can help you face the future with confidence.

Our work includes:

- campaigning on a range of issues from preventing sight loss through to better transport services for blind and partially sighted people
- supporting others through a range of products and services including Eye Clinic Liaison support • offering training, education and learning
- employment and education services
- promoting accessible services We also offer advice about money, eye health and how to access local services.

We provide education and employment services and advice that enables people with sight loss to retain and gain jobs.

We campaign to ensure proven treatments for sight-threatening conditions are available on the NHS. We also campaign to raise awareness of sight issues including how to prevent sight problems.
