

# Living Well North Tyneside

Supporting Health and Wellbeing

environment having lots of fun. Our staff are experienced and well qualified and support the children to be actively involved in the planning of activities and have their say about what they want in the club and their input is valued. Schools Out encourages independence and confidence, while being aware of the feelings and emotions of others in the group. We provide the children with a healthy snack, until their main meal with the family.

Why don't you come for a visit and see what we can offer your child. We would love to meet you and your child.
