

# Individual Placement and Support (IPS)

Connecting businesses with motivated candidates  
in drug and alcohol treatment

Paid employment can make a real difference to your life.

Being in work can help your recovery by growing your confidence, improving your self-esteem, enabling independence, and introducing you to new people.

The Individual Placement and Support team can offer:

- non-judgemental support with your employment goals
- help with applications and interviews
- introductions to local companies

Support continues when you start working too, the IPS team remains in contact with your employer to ensure a smooth transition into the workplace, adequate training, and a mentor.

“ Evidence shows employment plays an important role in successful recovery. ”
